

Curved Belt Conveyors

BCA's Curved Belt Conveyor is built to a high standard of hygiene thanks to easy access, open design, and standard stainless steel construction. The chain-driven belt guarantees a slip-free start-stop even with the heaviest loads. Simple belt change assures it fits perfectly in applications for food and non-food industries.

Standard Features:

- Maintains product orientation.
- Stainless steel washdown construction.
- Cantilevered belt support structure.
- Flip-up, small diameter end rollers ease transfers.
- Positive belt drive with automatic lubrication.
- Washdown duty motor and gearbox.
