

Sanitary Conveyors

Experience a new level of cleanliness, efficiency, and reliability with our state-of-the-art sanitary washdown conveyor. Designed with cutting-edge technology and adherence to the highest safety standards, our conveyor is perfect for the food, pharmaceutical, and other hygiene-sensitive industries.

Standard Features

Our Sanitary conveyor are available in a variety of belt types,. They are designed using materials that can withstand harsh washdown procedures, ensuring your products are transported in a clean and hygienic environment.

- Exceptional durability
- Easy and fast cleaning, saving time and resources
- FDA-approved materials for food contact

Sanitary Design Features

Fully Welded Frame:

- Seamless design prevents the buildup of bacteria, making it ideal for applications that require the highest level of hygiene.
- Robust construction for long-lasting durability
- Seamless design for easy cleaning and reduced bacterial growth
- Customizable to fit your specific application requirements

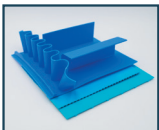

USDA-approved leveling feet:

- Compliance with USDA standards for hygiensensitive industries
- Easy-to-clean design reduces the risk of contamination
- Adjustable to accommodate uneven flooring

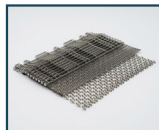

Specification Adherence

- Stainless steel construction
- Fully welded seams
- Polished surfaces to minimize sub-surface contamination
- Reduction of surface to surface contact
- Avoidance of hollow bodies
- Sanitary leveling feet
- Clean in place capability
- AMI Sanitary Design Principles
- Meat and Poultry NSF_ANSI_3A 14159 Hygiene Requirements for Design of Conveyors
- EHEDG - European Hygienic Engineering and Design Group Docs 8 and 43

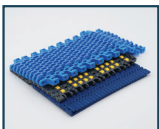

Belting Options

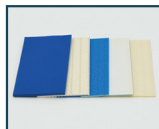

Homogeneous Urethane

Wire Belt

Modular Plastic

Fabric Belt
